                <b>Welcome to the DWM Family!!</b>We are thrilled to have you join our
```

community of dancers. As you
                begin your program, we want to provide you with tips and information to help you make the most out of
                your dance lessons.
            </p>
            <p>
                Utilizing Your Lessons: Your program consists of a total of 13 sessions, including 5 private
                classes, 5 group classes, and 3 parties. We encourage you to utilize the privates and groups within 1
                month. This condensed schedule is designed to immerse you fully in the dance experience and accelerate
                your progress. Consistency is key when learning anything new, so we encourage you to make it a priority
                and we guarantee we will make it worth it! The aim of your current plan is to explore various dances and
                patterns, setting you on the path to becoming a confident dancer. To enhance your learning experience we
                highly encourage you to share your feedback throughout the lessons. Let us know which songs inspire you
                to dance, which dance styles pique your curiosity, and how you prefer to learn.
            </p>
            <p>
                Group Class Schedule: You will find the schedule for our group classes on our website. We
                recommend attending sessions regularly as they provide valuable opportunities for socializing,
                practicing with different partners, and refining your techniques under the guidance of our experienced
                instructors. Anyone working in the studio will be able to give you advice on which groups will be best
                for your level and desire.
            </p>
            <p>
                Attire: For your comfort and ease of movement, we suggest wearing clothing that allows you to
                move freely. Ballroom dancing is a king's sport so dressing up is encouraged :) However, if you are
                coming from work or the gym, that of course will work as well. Additionally, it's important to wear
                appropriate dance shoes to support your feet and enhance your performance. If you are able to purchase
                ballroom dance shoes, that is ideal but it is not essential to learning. A comfortable sport shoe or a
                shoe with a small heel will also do as long as it won't slip off. For more recommendations, please speak
                to your instructor.
            </p>

<td colspan="3" width="100%">
    <p><b>Additional Tips:</b></p>
    <ul>
        <li>
            If possible, consider scheduling a private lesson right before a group class (especially if you are
            busy). This back-to-back format provides you with 90 minutes of dance practice, blending focused
            personal instruction with the fun and energy of group dynamics.
        </li>
        <li>
            Arrive a few minutes early to each class to warm up. Warming up could be reviewing the steps you've
            learned, physical stretching or even just giving yourself time to sit and watch the other lessons
            going on.
        </li>
        <li>
            Let your instructor know what you are enjoying most. The more open you are with your experience the
            better your instructor will be able to custom tailor it for you.
        </li>
        <li>If possible, practice outside of class to reinforce what you've learned.</li>
        <li>
            Your teacher will keep track of your progress in your program which he will show you on your first
            lesson. You are more than welcome to access it whenever you are at the studio.
        </li>
    </ul>
    <p>
        We're here to support you every step of your dance journey. If you have any questions or need guidance,
        just give us a call. Let's make your dance experience as exciting and enriching as possible!
